

DURA GARBAGE BINS

Keep Yourself Healthy[®]

DURA[®] MAX

Dura Garbage Bins

Dura Max has been offering excellent plastic products for the last 35 years in Pakistan. Their garbage bins are masterpieces. We generate trash and garbage every day, which requires attention on a regular basis to maintain cleanliness, safety, and a healthy environment. Dustbins are an important factor for both human health and environmental development. Hence, choosing the right garbage bins and using them responsibly can benefit the ecosystem. **DURAMAX** understands this and offers the perfect solution for waste management.

Dura Max offers state-of-the-art waste bins that meet all industry standards. Our products are widely used by industries and public places. Such as municipalities, airports, cooperative housing societies, parks, commercial and residential complexes, hotels and restaurants, etc. Moreover, **DURAMAX** is committed to innovation and better products for you and society. So, what are you waiting for? Make cleaning faster and easier by ordering the right waste management products from Pakistan's most trusted manufacturer.

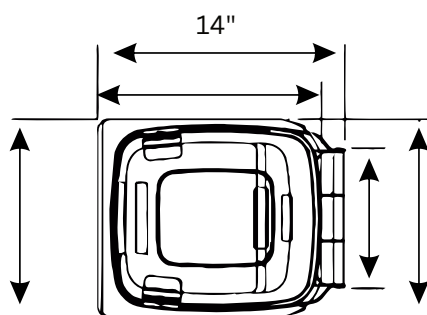

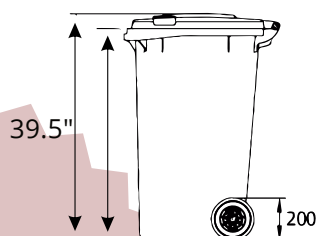

Garbage storage helps maintain cleanliness and hygiene in our day-to-day lives by storing household waste as well as waste from industries and biomedical waste.

Waste segregation: trash cans of different colors help in segregating the waste, thereby improving the efficiency of waste collection and disposal.

Gardening: old garbage cans can be recycled and used in the garden to collect and dispose of weeds, leaves, grass, and debris, as well as store soil and other compost materials.

Equipment storage: trash cans are good storage solutions for things like brooms, mops, wrapping paper, and sporting equipment such as balls, bats, rackets, and Frisbees.

Animal feed storage: storing pet food in durable new garbage can make storing easier and keep food fresh, particularly on farms, animal shelters, and equestrian or veterinarian venues.

Purpose To dispose commingled / segregated waste
