DURA[®] MAX

Dura Water Tanks

Dura Max has been manufacturing Plastic Water Tanks, UPVC & PPRC Pipes and fittings, Textile Sliver Cans, Poly-Lights, Road Safety Products and Garbage Containers under its flagship brand "DURA". Since 1992, the company has gone through major changes and evolved into Dura Polymer Industries.

Dura Polymer Industries is operating under its renowned brand name "DURA MAX", which has been a trademark of reliability and quality for more than three decades. The brand "DURA MAX" has steadily gained nationwide recognition and a reputation as one of the leading Plastic Manufacturers across Pakistan. With multiple manufacturing units across the country, we proudly claim to be the largest producer/supplier of Plastic Water Storage Tanks, PPRC pipes and Fittings, Textile silver cans, Poly-Lights, Road Safety Products, and Garbage Containers in Pakistan.

"Dura Max" is a complete water storage solution provider company in Pakistan. With our three decades of trust, superior quality, cutting-edge technology, and consumer-friendly designs, our plastic water storage tanks have a track record of excellence, making us the best water tank brand in the business. Our water tanks are designed and manufactured keeping in mind the industry needs and the ever-changing demands of consumers. Dura Water Tank (Dura Max) is a selected Superbrand in the water storage tanks category, making it the best water tank company in Pakistan today

Protection against bacterias

- Lightweight and Durable
- Maintenance Free
- Free from algae formation

INSTRUCTIONS FOR INSTALLATION

- The tank base should be placed on a rigid, strong, level and flat base.
- Pipelines, valves and other fittings should be properly aligned.
- Check the nuts that connect the tank to the nipple.
- Nuts must be used with rubber gaskets and should not be over-tightened.
- The tank should be properly cleaned with detergent on the inside before being used.

Convenient Cooling

Water in polyethylene tanks often get over-heated in summer. **DURA Max Tanks** have a layer of foam within the layers of polyethylene. Being a non-conductor of heat, the layer of foam, keeps your water cool even at the peak of summer.
